About Company

CV. Gunawan Plastik is a company that operates in the field of plastic films (PP, LLDPE, and HDPE) in various sizes and colors. This company was first founded by Mr. Surya Gunawan in 1970 located on Jl. Sidodadi no. 101. Surabaya.

Starting from 5 workers with a machine that produces general LLDPE type plastic packaging with a capacity of 30 tons per month. In line with the times and increasing market demand, in 1985 Gunawan Plastik began to develop its business by moving its location to Jl. Rungkut Industri III no. 47, Surabaya. A number of machines were added to increase production capacity.

In 1996, in order to increase production capacity, CV. Gunawan Plastik moved its location to Jalan Raya Rajawali Industrial Block No. 9 Betro. Sidoarjo so that it can boost production and sales.

Now, Gunawan Plastik has employed more than 350 employees and to increase production numbers, Gunawan Plastik currently has more than 50 extruder machines and more than 30 cutting machines with a production capacity of up to 1000 tons every month.

Manufacturing Equipment & Machines

Extruder Blow Film

according to product specification and performance requirements, select the appropriate formula for blow film production

Dust-Free Bag Making Machine

roll-making machine produces bottom sealed and with perforation seal plastic bag on a roll. The bottom sealing device and perforation knife are specially designed for HDPE/LDPE/LLDPE films.

Printing Machine

printing machine mainly prints various film materials such as Bopp, Pet, Pe, Shrink film, etc. The use of The ink level is clear and the printed product is brighter.

Manufacturing Equipment & Machines

08

CV. Gunawan Plastik

This Series Stretch Film Machine Has Models of 3-Layer (M3B) and 5-layer (M5B) blown film extruders that are applied to manufacturing various of non-barrier stretch film, heat shrinkable stretch film, etc.

Manufacturing Equipment & Machines

09

CV. Gunawan Plastik

***Stretch film:** also known as stretch wrap, is a highly elastic plastic film commonly used for bundling and protecting products. It is made from linear low-density polyethylene (LLDPE) and possesses excellent stretchability, allowing it to be elongated and wrapped tightly around various items.

Testing Equipment

MXD-01A Coefficient of Friction Tester

MXD-01A Coefficient of Friction Tester is strictly based on ASTM D1894 standard, and is professionally applicable to the determination of static and kinetic coefficients of friction of plastic films,

CHY-C2A plastic film thickness gauge for Mechanical contact

CHY-C2A using contact measurement methods, in strict compliance with the standards, effectively guarantee the normativity and accuracy of the test

Testing Equipment

XLW-H Intelligent Tensile Testing Machine

specializes in testing the mechanical properties of various flexible packaging materials. It is mainly used to test the heat seal strength, tensile strength, peel force, elongation of pharmaceutical packaging materials,

The CR-10 Plus is a simple colour reader ideal for measuring colour difference between two samples. The instrument is a full colorimeter in compliance with DIN 5033.

Testing Machines Inc. Heat Sealer
Brought to you by Testing Machines Inc, our physical property specialist testing brand, our industrial heat sealer is designed to produce heated crimp seals for flexible packaging materials

Testing Equipment

CV. Gunawan Plastik

SGW-810 Light Transmittance and Haze Tester

Used for test the light transmittance and haze degree of all transparent and semi-transparent parallel plane samples (plastic plate, sheets etc), and turbidity or clarity of liquid samples (water, drinks etc), used in the industries of plastics, membrane, coatings and paints, printing ink, research institute and so on.

GBD - L2 Falling Dart Impact Terter

is suitable for testing materials such as plastic film or sheet and steel plate coating with a thickness of less than 1mm. Under a given height of free falling dart impact, it can measure the energy (in Quality to express results) of plastic films, thin section specimens and other materials.

Main Scope

www.cvgunawanplastik.com

CV. GUNAWANPLASTIK
PLASTIC PACKAGING MANUFACTURER

Food Packaging Vacuum Pouch

- Manufacturer of a wide range of products which include Multi Layer Co Extruded Embossed Vacuum Packing Pouch For Household Vacuum Sealer Machine, Embossed Vacuum Sealer Bags Nylon PE For Food Packaging, 60mic-450mic Vacuum Packaging

Main Specification

| Series | Material Structure | Advantage | Product Application |
|----------------------|---------------------------|-------------------------|---|
| LLDPE NATURAL | 99% LLDPE 1 % ADDITIVE | Strong And High Elastic | Vacum Pack Food And Fruit |
| PP NATURAL | 100% POLYPROPYLENE | High Clarity | Snack Bags Are Suitable For Display Product |

Medical Packaging

- Sentry Garbage Bags are constructed from High Density Polyethylene (HDPE) and (LLDPE) for strength and security. The design allows the bag to be sealed either in a star shape or a straight line at the base, preventing leaks and ensuring safe disposal of medical waste materials.

Main Specification

| Series | Material Structure | Advantage | Product Application |
|------------------------|---------------------------|---|---------------------------------|
| HDPE COLOR | 99% HDPE 1 % ADDITIVE | Elastic And Strongly, Not Easy to Tear | Trash Bag Industry And Medic |
| LLDPE COLOR | 99% LLDPE 1 % ADDITIVE | Elastic And Strongly, Not Easy to Tear | Trash Bag Industry And Medic |

Agriculture Packaging Mulch, UV plastic

- Mulches have been used in many forms for years with excellent results for the production of early, high quality vegetables. In addition to controlling weeds, mulches increase soil temperature, allowing you to plant and harvest earlier in the season.
- PE film has the characteristics of good transparency, excellent thermal insulation performance, good aging resistance and long service life. It has excellent weather resistance, good tear resistance, and is easy to install and maintain.

Main Specification

| Series | Material Structure | Advantage | Product Application |
|--------------------|--------------------------|---|----------------------|
| LLDPE MULCH | 92% LLDPE 8% ADDITIVE | Anti - Uv to Maintenance Soil fertility | Agricultural Plastic |
| | | | |

Bag Packaging Embossed Perforated

- Embossed Vacuum-sealer bags keep food fresh, No more soggy, gritty, wilting fruit and vegetables. Keep steaks juicy and flavorful.
- No more soggy, gritty, wilting fruit and vegetables. Keep steaks juicy and flavorful.
- BPA free and non-toxic for freezer storage.
- Ideal for sealing perishable foods or valuables to protect them in storage.

Main Specification

| Series | Material Structure | Advantage | Product Application |
|-------------------------|-------------------------|-------------------|---------------------|
| HDPE Perforated | 99% HDPE 1% ADDITIVE | Multi Purpose Bag | Food And Fruit Bag |
| LLDPE Vacum Pack | 99% HDPE 1% ADDITIVE | Multi Purpose Bag | Food And Fruit Bag |

Bag Packaging *Laundry, Shopping Bag*

- If you are looking for plastic shopping bags, your best bet is our Heavy Duty Plastic Bags - these are thick enough to be reusable and come in a range of colours and sizes. We also have a small range of 35µm plastic shopping bags available, however, these bags meet the requirements in most states of Australia.

Main Specification

| Series | Material Structure | Advantage | Product Application |
|--------------------------|--------------------------|-------------------|----------------------------------|
| LLDPE Natural | 99% LLDPE 1% ADDITIVE | Good Clarity | Multi Porpose Bag |
| LLDPE Poly Mailer | 99% LLDPE 1% ADDITIVE | Multi Porpose Bag | Document Plastic And Online Shop |
